Summary

Front-End Web Developer with a background in emotional intelligence and psychology. Recently received a certificate in Full Stack Web Development through University of Oregon developing skills in HTML, CSS, JavaScript, and responsive web design. Develops efficient code, considering the human mind and emotions, to create a successful user experience.

Technical Skills

HTML, CSS, JavaScript, Node.js, Express, React, jQuery, GitHub, Bootstrap, AOS, Materialize, Mobile-first & responsive design, OOP, API integration, MySQL, Firebase, MongoDB, Express, Handelbars.js & ReactJS

Projects

Gluten Tootin | https://adamwheeler81.github.io/project1/ | Repo: https://github.com/adamwheeler81/project1
An app dedicated to searching for gluten-free recipes and restaurants, making it easy for those with the diet restriction to search for food that fits their diet needs, so that they won't eat food that is potentially harmful.
Role: Lead Administrator in a team of three, managing GitHub and assisting with back-end code
Tech Used: HTML, CSS, JavaScript, jQuery, Spoonacular API, Zomato API, Foundation CSS Framework, GitHub, Git

Star Gazer | https://limitless-atoll-63723.herokuapp.com/ | Repo: https://github.com/alpinelife37/Project-2
Node based app that allows users to log in and view information about different astrological formations. Particularly useful for educating children without the intrusion of adds or unfortunate google searches.
Role: Front-end Developer, GitHub management
Tech Used: HTML, CSS, JavaScript, jQuery, Bootstrap, Font Awesome, Ajax, Node, Express, Heroku, npm, MySQL, JawsDB, Travis CI

Experience

Insurance Verification & Pre-registration Specialist   Sept 2017 – Oct 2019
Providence St. Joseph Health   *Portland, OR*
Communicated with providers and insurances to verify scheduled and ER hospitalizations were covered. Collected patient billing and demographic data over the phone to ensure PSJH received proper reimbursement for their services while creating an environment where the patient feels safe and appreciated.
Key Accomplishments:
- Bolstered employee engagement in 74% of employees while a member of CASmittee by creating and implementing a Clifton Strengths training program for a department of more than 100 team members.
- Achieved and maintained 100% productivity in 4 months by instituting revised processes, developing personal aids, and cultivating team bonds.

Education

University of Oregon | Portland, Oregon | Coding Boot Camp
A 24-week intensive program focused on gaining technical programming skills in fullstack web development.

Boise Bible College | Boise, Idaho
BS Helping Professions (Counseling)
AS Intercultural Studies
